## **Electronic Invoicing** Revolutionizing Business Transactions

Insights from France, Germany, Italy, Poland and Spain

*On 8th December 2022, the European Commission published its proposed VAT in the Digital Age (VATiDA) reforms to amend the European Union (EU) Value Added Tax system with the view to respond to the challenges of digitalization. At the same time local governments are introducing internal obligatory e-invoicing systems, which are not harmonized at the European level. How to meet challenges?*
